

The Thirteenth International Conference on
"Hyperbolic Problems: Theory, Numerics, Applications"

June 15-19, 2010

Xijiao Hotel, Beijing, P.R. China

The thirteenth International Conference on "Hyperbolic Problems: Theory, Numerics and Applications" (HYP2010) will be held at the Xijiao Hotel, Beijing on June 15-19, 2010. The objective of this conference is to bring together researchers, practitioners and students with interest in theoretical analysis, numerical simulations, and applications of hyperbolic PDEs and related mathematical models appearing in the area of applied sciences. The conference will keep the traditional balance of the HYP series, blending theory, numerics and applications. In addition, additional new attracting points are also taken into granted.

The conference website is now available. The online registration is possible and the deadline of online submission of abstracts is January 15, 2010. Please note that the conference shall take place in XIJIAO Hotel (<http://www.xijiao-hotel.com.cn/>), which is near Academy of Mathematics and Systems Science (AMSS) of the Chinese Academy of Sciences, Tsinghua University, and Peking University.

For more information about the list of the Scientific Committee and Invited Speakers, registration fee and the related things including possible supports for young mathematicians from developing countries, please visit the HYP2010 conference website at

<http://www.amt.ac.cn/hyp2010/>

Looking forward to seeing you in Beijing,

Daqian Li (Co-Chair) and Song Jiang (Co-Chair)

On behalf of the HYP2010 Organizing Committee

Daqian Li (Co-Chair, Fudan University)

Song Jiang (Co-Chair, Institute of Applied Physics and Computational Mathematics)

Feimin Huang (Chinese Academy of Sciences)

Hai-Liang Li (Capital Normal University)

Yaguang Wang (Shanghai Jiao Tong University)

Huijiang Zhao (Wuhan University)

Changjiang Zhu (Central China Normal University)
